

WHAT'S LOOKING GREAT NOW...

ANNUALS

Pansies, Violas, Polyanthus, French Marigold are all available in our potted colour range and are a great price at \$2.50 each or 5 for \$12. Ideal for brightening up your garden.

Hanging baskets with '**Million Bells**' or **Calibrachoa** will provide a cheery display as will **Verbena** ground covers in pinks, purples and fuchsias.

PERENNIALS

Japanese Windflower or Anemones are wonderful semi-shade to full shade growing plants. Colours include dainty white or pink flowers both in single and double forms.

Fuchsia - described as ballerina's tutus, they are great for patios and protected areas. They make wonderful gifts too.

Salvia - available in a range of colours. They look lovely planted en masse and have a great scent.

VEGETABLE GARDENS

Take advantage of our climate and plant with hearty winter meals in mind. **Spinach, cabbage, onions, celery, beetroot, carrots, brussel sprouts & spring onions.**

Other suggestions to plant now include **lettuce, parsley, chives, mint, strawberries and raspberries.**

Why not put in a fruit tree to complement your vegetable garden. Try **apple, lemons and limes.**

ROSE AND TREE CATALOGUES FOR 2012

Our bare rooted tree and rose catalogues for 2012 are available now! This is by far the most economical way to add beautiful trees and roses to your garden.

We pride ourselves on being your **local rose specialists** and go to great lengths to source the best roses available.

If you are after a tree that gives a lovely show of **Autumn colour**, then now is the time to be looking at the changing leaves and choosing the perfect variety.

To avoid disappointment get your orders in asap. Please ask us for a copy of the catalogues or find them online at **www.anythinggrows.com.au**

If you require information on care or pruning roses please see our dedicated horticultural team. Or let us do the work if you prefer to smell the roses rather than tend to them!

Autumn is a great time to plant, especially bare rooted trees and roses - the soil is still warm from summer and the roots have a chance to become established. Roots will also grow during the winter months, even though trees are dormant.
